

GrowthAI Workflow Pain Point Questionnaire

For founders, small business owners, salespeople, marketers, and service businesses evaluating customer acquisition pain points.

Research use only: Please do not include patient information, customer private information, employer confidential data, internal screenshots, proprietary documents, passwords, private metrics, or anything that should not leave the company. Keep answers general and workflow-focused.

1. Business Background

1. What type of business do you run or work with?

2. How do you currently find new customers?

3. What marketing or sales methods work best today?

4. What methods waste the most time?

5. What does a good lead look like for your business?

2. Lead Discovery

6. Where do you currently look for leads?

7. What lead information is hardest to find?

8. How do you decide whether a lead is worth contacting?

9. What causes good leads to be missed?

10. What research would you want AI to do before outreach?

3. Outreach and Follow-Up

11. How do you currently contact new leads?

12. What makes outreach feel awkward, spammy, or ineffective?

13. How do you track follow-ups?

14. What causes leads to go cold?

15. What should AI be allowed to draft but not send automatically?

4. CRM and Communication History

16. Where do you track conversations today?

17. What customer context is hard to remember?

18. What notes or history should always be visible before follow-up?

19. What statuses would help you understand the pipeline?

20. What makes current CRM tools frustrating?

5. Referrals and Reputation

21. How do referrals happen today?

22. What would motivate customers to refer others?

23. What referral rewards would feel fair?

24. How should successful referrals be tracked?

25. What reputation signals help a lead trust a business?

6. AI Trust and Human Approval

26. What sales or marketing tasks would you trust AI to help with?

27. What tasks should require human approval?

28. What would make AI outreach feel honest instead of fake?

29. How should the system handle uncertainty?

30. What ethical boundaries should never be crossed?

7. Ideal GrowthAI

31. What would reduce customer acquisition stress the most?

32. What would save the most time each week?

33. What dashboard metric would you check every day?

34. What one growth task would you automate first?

35. What would make this system worth paying for?
